To: Whom It May Concern;

This is a letter of recommendation for Rafi Hecht. Rafi has worked for me in Network Administration as a technical specialist maintaining an orderly technology environment. This position required much responsibility, and technology background which he brought with him from college and applied to our computer environment. He was conscientious and we were pleased with him. We were sad to see him leave and felt that we could offer him opportunities for growth. However, we recognize that in a shop the size of ours it was not practical to install a supervising manager and tailor the job to his level. If your organization can offer him a position with junior level requirements, we recommend that the doors of opportunity be opened to him.

Sincerely Yours,

Shloime Gruen
